 - Feminine Hygiene Products/Diapers
 - Cleaning Supplies

MISSION STATEMENT

Genesis House is a shelter for abused women and their children dedicated to protecting and empowering women to make their own life choices. Women have the opportunity to explore options for their future through education, counselling, and quality programming in a safe, supportive and caring environment. We advocate to end domestic violence through community education and awareness.

PHILOSOPHY

That physical, emotional, sexual and economic abuse toward another individual is violence. Such violence is damaging and contrary to standards of reasonable behavior in our communities. We consider such violence to be the concern of all members of our society. We believe that victims and abusers should receive the assistance/support of their communities in the changes they choose to make.

SIGNS OF ABUSE

The following behaviours and feelings are signs of an abusive relationship.

Have you ever been:

- pushed or shoved?
- held in or locked out of your home?
- refused access to medical help?
- hit or threatened?
- criticized, humiliated?
- degraded, called names?
- forced to have sex?
- forced to give up control of your property?
- forced to give up control of your finances?

Do you feel?

- isolated?
- threatened?
- helpless?
- hopeless?
- alone?
- scared?

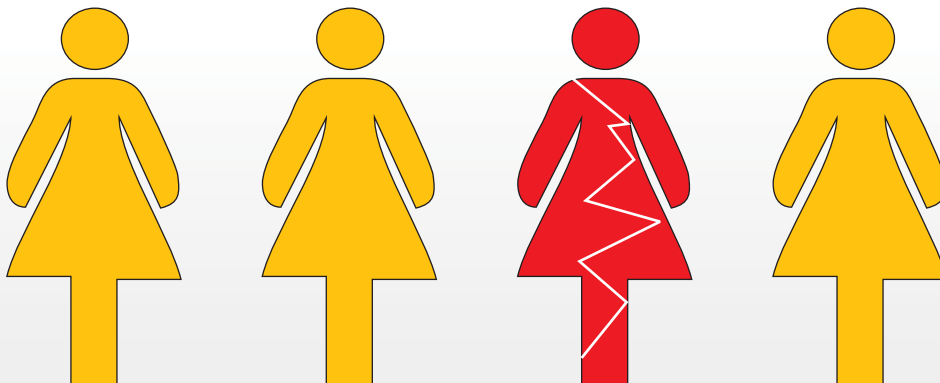

TODAY'S REALITY

- On average every 6 days in Canada a woman is killed by her intimate partner.
- 67% of all Canadians say they personally know at least one woman who has been sexually or physically assaulted.
- Young females aged 25-34 experienced the highest rates of spousal violence.
- Children housed in shelters for reasons of abuse tend to be very young. Children under the age of five constituted the largest proportion of abused children in shelters followed by children aged five to nine.
- Research shows that children who witness violence are more likely to grow up to be victims or abusers.

TOMORROW'S DREAM

- Women and children will not experience abuse.
- Women will seek the help they need and be able to get into a safe place with their children. These women will not experience shame.
- Women will be given power to make choices.
- Individuals will be aware that violence exists. They will know what violence against families or intimate partners is. They will know that families need support.
- Individuals will recognize the signs of family violence. They will know how to get involved and be helpful without putting themselves at risk. They will work to get rid of violence.
- Individuals who abuse family and intimate partners will stop. They will recognize the harm they are doing and they will not be supported in their use of abuse. They will seek help that supports them to live without being violent or abusive.
- The cycle of violence that has been passed on from generation to generation will stop. Children will grow up safe and with healthy attitudes about relationships.

YOU ARE NOT ALONE.
